PROFILE

"I am a Software Engineer specializing in frontend web development, with expertise in HTML, CSS, JavaScript, React.js, and Node.js. Passionate about building responsive, user-friendly, and visually appealing web applications. I focus on writing clean, efficient code and integrating modern UI/UX principles to enhance functionality and user experience. Always eager to learn and adapt to new technologies.

EDUCATION

Sindh Maderssatul Islam University

Bachelor of Science in Software Engineering (BSSE)
2023 – Present

During my degree program, I have studied a diverse range of subjects, including Programming Fundamentals, Object-Oriented Programming (OOP), Data Structures and Algorithms, and Software Design and Architecture, which strengthened my programming and development skills. I have also explored topics like Software Requirements Engineering, Computer Organization and Architecture, and Database Management, providing a solid foundation in software engineering principles. Additionally, I have gained knowledge in advanced areas such as Artificial Intelligence and Data Communication and Networking, enhancing my understanding of modern technologies and systems.

Khatoon e Pakistan Govt College

Intermediate in Pre-Engineering
2021 – 2023

I focused on core subjects such as Mathematics, Physics which helped me build a strong foundation in problem-solving, analytical thinking, and computational skills.
